February 2010

Greetings from Argentina,

We have been busy since the end of the year. We are settled now in the house that God has provided for us here in Don Torcuato. We began holding an evangelistic Bible study in our house the first of February. God has blessed as each week there has been someone new who has attended.

Gail has been holding a Bible time for children this summer. She has really enjoyed this opportunity to teach these children the Word of God and help them grow in their understanding of their need of a Savior.

Joe has been working with Hector as he desires to grow in leadership and help in the new work. It is a blessing to see how he has grown spiritually over this last year.

Joe has also been working with Missionary Javier Bravo encouraging him in the planting of a new church in Villa Soldati. They are currently having evangelistic Bible studies in the home of one couple who are extremely interested in the Gospel and seeing a church planted in their neighborhood.

God is opening some more doors to work with people who are interested in beginning new works in their neighborhood. To be effective in this work, we will need to purchase a car. We presently have about \$8500. We need at least \$10,000 to purchase a decent used car. If you could help, it would be greatly appreciated.

The Missions Conference with the churches in Peru was considered a success. They laid the groundwork for continued cooperation in planting new churches in Peru as well as sending Peruvian missionaries to other countries. In the Amazon jungle this month they are having their first graduation from the seminary there. There are three graduates.

Praises

- The new evangelistic Bible studies
